

REMARKS

Claims 1-19 are now present in this application. Claims 1, 6, 11 and 16 are independent. Claims 6 and 11 are amended. No new matter is involved.

Applicants thank the Examiner for the contact with Applicants' representative, Mr. Robert J. Webster in discussing the proposed amendment of claims 6 and 11 to obviate the statutory double patenting rejection. Based on telephone discussions between Examiner Thompson and Applicants' aforementioned representative during this past week, Applicants have agreed to amend claims 6 and 11 to positively recite what Applicants believe they have positively recited all along, i.e., a heat dissipator for an electrical apparatus.

Applicants respectfully submit that claims 6 and 11 are not narrowed in scope in any way by these amendments. Rather, now both Applicants and the Examiner apparently believe that claims 6 and 11 positively recite structure that avoids a statutory double patenting invention.

Applicants also enclose a Terminal Disclaimer with respect to U.S. Patent 6,603,659.

Based on the foregoing, and on the original Reply, which was filed on June 8, 2004, Applicants respectfully submit that claims 1-19 are allowable and a prompt Notice of Allowance is respectfully requested.
